-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 28 August 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### DETAILED ACTION

This action is in response to applicant's amendment received on 08/28/2009.

Claims 1-27 are pending in this application. Claims 7-27 are withdrawn from consideration.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-6 are rejected under 35 U.S.C. 102(e) as being anticipated by

**Goldfarb et al.** (U.S. Patent No. 6,752,813).

Goldfarb et al. disclose a method of reinforcing a native valve **LF** comprising implanting a reinforcing support to at least one valve leaflet, said support positioned away from free edges (near **326, 327**) of the valve leaflet, thereby allowing any free edges of the at least one valve leaflet to form a seal with free edges of adjacent leaflets during diastole, attaching a reinforcing support to both a downstream and upstream surfaces of the at least one valve leaflet by sandwiching the at least one valve leaflet between adjacent interlocking or connected support members **370, 372 or 380, 382** on opposite sides of the valve leaflet (Figures 26A-27B; col. 21, line 13 to col. 22, line 7).

***Response to Arguments***

3. Applicant's arguments filed 08/28/2009 have been fully considered but they are not persuasive.
4. Applicant argues that the anchors described in Figures 26A-27B of Goldfarb are merely attachment points for sutures, and in Figure 23B the anchors attach separate, adjacent leaflets at their free edges, and that the anchors are not in and of themselves supports for the leaflet. The examiner disagrees. The anchors are considered to be supports, since they hold and reinforce the leaflet tissue and add structure to the leaflet. Goldfarb teaches installing these anchors *away* from the free edges of adjacent leaflets (Figures 23A, 26A-27B), and therefore the terminal ends of the free edges of the leaflets are still "free" to form a seal with each other when attached with sutures (Figure 23B). In other words, the anchors are not installed in between the terminal ends of the free edges of adjacent leaflets, as in other embodiments of Goldfarb (Figure 21A), but rather away from the free edges, and therefore read on the claim limitations.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
